To Whom So Over It May Concern

Respected Sir/ Madam,

As the assistant professor of Biotechnology Department at Elphinstone College, Mumbai, I am delighted to write this letter of recommendation for Ms.Sunetra Soumitra Mukherjee, for her Internship. I have found her to be an inspired and diligent professional. She is a highly motivated and sincere student, who has actively capitalised on every opportunity our college had to offer.

Throughout her tenure, she has exhibited the true qualities of an enthusiastic student. Along with demonstrating a great desire to explore the subject, she also showed a high degree of maturity, academic integrity, and honesty in all her writings and official submissions. She is exceptionally skilful when it comes to research and analytical skills.

Sunetra's enthusiasm, inquisitiveness and rigorous hard labour has always been her greatest strengths. She gave meticulous attention in the lectures and had demonstrated excellence in all the experiments, assignments and projects. Her impartial understanding and curiosity in studying had helped her to evolve into a promising student. She is not only exceptional in her academics but also a compassionate, empathetic person who supports those around her.

I am extremely happy to see her aspiration for research and have faith in her that she will make the most out of the program and would be a valuable fit at your institution. Thus, I extend my endorsement for her admission into the program she chose to pursue at your organisation. I am happy to answer any questions which might help you in making a decision.

Sincerely,

Sabhna Nair

Assistant Professor

Department of Biotechnology

Elphinstone College
