LETTER OF RECOMMENDATION FOR SUMMER INTERNSHIP PROGRAM

I would like to endorse the candidature of Ms. Shriya Khedekar for the ICMR-NIRRH SUMMER TRAINING PROGRAMME 2026 at your Institute. I have known Shriya as an undergraduate student from 2021 to 2024 and she is about to complete her post-graduation in our department.

Her sincerity and keenness to learn made her one of the best students of the class. She performed very well in exams, practical sessions and presentations.

As her UG and PG teacher, I observed that she can work independently and also as a team associate. Her excellent communication skills help her in putting forward her point noticeably and solicitously. She has also been very participative in various extracurricular activities.

It would give me great sense of satisfaction to see her succeed in educational and professional life. I therefore strongly recommend her for the internship program at your Institute so that she can augment her theoretical knowledge.

With regards,

Dr. Mrs. Aparna Dubhashi
Associate Professor and Head,
Microbiology Department,
G N Khalsa College
