

LETTER OF RECOMMENDATION

To Whomever It May Concern

I am pleased to write this letter in support of **Ms. Sanskruti Sutar's** application for the **internship at the ICMR – National Institute for Research in Reproductive and Child Health (ICMR-NIRRCH)**.

Ms. Sanskruti is currently pursuing her **M.Sc. in Bioinformatics** at **Guru Nanak Khalsa College, Matunga**, and is in the first year of her postgraduate program. She has demonstrated consistent academic progress and a sincere commitment to deepening her understanding of bioinformatics.

Through her coursework, she has built a strong foundation in **molecular biology, computational biology, programming and data analysis**. She is comfortable working with programming tools relevant to bioinformatics and shows sound logical reasoning and problem-solving ability while handling computational tasks. Her ability to integrate biological concepts with computational approaches makes her well-suited for research-oriented training.

She works effectively both **independently and as part of a team**. In collaborative environments, she is cooperative, communicative, and supportive of group objectives. When entrusted with individual responsibilities, she carries them out with discipline and reliability.

I am confident that exposure to the research environment at **ICMR-NIRRCH** will further strengthen her technical and research skills. I believe she will contribute positively and uphold the professional and academic standards of your esteemed institution.

I recommend her sincerely for this opportunity. Please feel free to contact me should you require any additional information.

Sincerely,

Dr. Gursimran Kaur Uppal

Head of Department, Bioinformatics

Department of Bioinformatics

Guru Nanak Khalsa College of Arts, Science and Commerce (Autonomous)
